Quote tag

The <q> tag defines a short **quotation**.

Note : <q> is an **inline** element because it can be put inside a line of text without affecting it

```
<p>PNC's goal is to: <q> enable
   the largest number of young
people in a precarious situation
to access training, leading to a
qualified job </q>. We hope they
          succeed.</p>
